## Certified Cosmetic Laser Training

All the training will be conducted using Sciton Profile. PROFILE is the industry's only configurable laser system, and sets new standards of performance for each application it addresses. It allows the fastest hair removal capability; It has a Broad Beam light source (BBL) which is the world's best pulsed-light system; the most versatile vascu-

All training will be conducted on Sciton Profile

lar treatment system; and the most reproducible and controllable skin tightening

system. The Profile laser system allows for the treatment of all skin types accurately and effectively, and it is proven to be extremely safe. Patients will receive consistent, minimally invasive treatments with fast recovery and minimal complications. Profile's computer-guided scanner and its advanced contact cooling plate will ensure patient comfort and maximum epidermal protection.
